Drop Pole Ceiling Mount Bracket and Adaptor

Drop Poles are available in varying lengths from 250mm upwards to 3m.

The drop poles have an optional 25mm threaded Cable inlet to allow neat entry where solid ceilings exist, alternatively the cables can be dropped directly through the centre of the pole.

The NPT1.5 Threaded adaptor creates a fully cable managed installation for your camera. Drop poles are available in a variety of colours.

Colour:

- New White

Sizes:

- 250mm
- 500mm
- 600mm
- 750mm
- 1m
